

We were presented with a commemorative gift made from Noshiro cedar!

July 29, 2024

Marubeni Offshore Wind Development Corporation

Mr. Shigenobu Saito, who is the Mayor of Noshiro City, Akita Prefecture, visited Marubeni Offshore Wind Development Corporation and presented the company with a commemorative gift made from Noshiro cedar, a famous local product.

The commemorative gift features an offshore wind turbine. The Noshiro Port Offshore Wind Power Plant, for which our company provides operation and maintenance services, has become part of the scenery of Noshiro City, and we are grateful to have received this commemorative gift in this form.

We will continue to deepen our ties with the local community through our offshore wind power generation business, and will continue to make even greater efforts, encouraged by Honorable Mayor Saito's visit and the commemorative gift he presented to us.
